

MARCH 2010: SEARCH FOR VEHICLE BY VIN NUMBER WITH MITCHELL MANAGER:

Within the Manager program, pressing **F3** (Utilities, Find Customer) provides access to where you can enter a VIN number and search within Manager for that vehicle and then launch an Estimate or Repair Order. Since this selects the vehicle, you may quickly proceed to the order screen.

Note: It should be decided early on that entire VIN's or partial VIN's (only the unique identifier digits) will be entered in your vehicle records. This has an effect on your F3 results. We always **RECOMMEND** using complete VIN numbers. This tip was brought to you exclusively by Mitchell 1, click here for more information:

Get Your Shop Talking

Mitchell1
TeamWorks

Mitchell 1 TeamWorks combines the features of Manager, Estimator and Repair to seamlessly integrate all parts of your shop. From the moment your customer walks in the door, TeamWorks allows your Service Advisor to look up customer and vehicle information, calculate time to diagnose, check TSBs and prepare an estimate. Parts advisors order and track parts from your favorite vendors. Techs pull up work requested with associated diagnostic and service information, and enter recommended service. That's the kind of shop talk you can turn into profit!
