April 2008

I recently switched my insurance coverage to the AAA Service Providers Insurance Program and saved thousands of dollars. The program is administered by capable Allen Grell of Lawley Service who is professional, courteous, and helpful. After reviewing my current policy and coverage, Allen was able to write my policy and save me nearly \$30,000 per year. This helped me stay in business!

With rising fuel and insurance costs, I had actually been considering downsizing my fleet and starting up a new business. Instead, I used the money saved through the AAA Insurance Program to buy another truck.

I would definitely encourage other AAA service providers to contact Allen Grell to see if they too can qualify for savings through this valuable benefit program.

Sincerely,

Mo Cassanelli
